

About me:

Greetings!

My name is Farhad Darayas Malegam , I'm a 21 year old young Zoroastrian lad from the *City Of Dreams-Mumbai* who is pursuing his bachelor's degree in technology .

I'm not going to brag about myself here; all I want to do is **share a dream** I witnessed about a year back, and that was being a part of the WorldMUN delegation in March 2012 which was hosted in Vancouver.

I met delegates from different countries and interacted with some great minds. We had debates, performances and most importantly a **quality learning experience**. It was a proud moment for me on the night when two of my mates got the award for being the best Diplomats ! It's the ***first time that someone from India won*** this award, and God! You have no idea how this has inspired me.

I've been MUN-ing for a few years now, but nothing can come near a WorldMUN experience. After WorldMUN , I not only became a better MUN-er, but I've also been invited to chair various MUNs.

I am also the Director of External Affairs for the MUN society for my university and also the Manager for International Relations for AIESEC in Mumbai.

Apart from this, I believe that I'm a good motivator and communicator. With the help of WorldMun I also discovered that I can be even better in the above qualities and discovered that I also have leadership skills. I know its not much but I am eager, and a fast learner and I can't wait to learn more.

My hobbies are traveling , playing the guitar , listening to music and studying various religions and cultures.

Going to **WorldMUN-2013** in Melbourne and **WINNING** there is something I want. And I want it real bad. I want to be up there, standing in front of all the people from all around the world, holding the winning certificate and showing everyone how winning is done. ***I have a dream , a dream to win, a dream to learn and be number one no matter what; and I believe that YES, I CAN do it.***

*All I need is **your support** to help me make my dream come true so that I can live it, and live the dream along with my team so that I can inspire others to capture their dreams just like something what I'm doing and give them a memorable experience.*
