

## JASLOK HOSPITAL

Date: 15.02.2010.

To,  
Trustees,

Sub: Regarding Financial Assistance.

Dear Sir/Madam,

This is to request you to kindly help Mr. Taraporewala Rustom Phiroz, 53 year-old male who is suffering from end stage liver disease. He was referred to Dr. Aabha Nagral from Jaslok Hospital and Research Centre. Dr. Aabha Nagral has advised him to undergo Liver Transplant as a life saving procedure. He is on waiting list for undergoing Cadaver liver Transplant as there is no living related Donor in his family. So he is registered on ZTCC city waiting for undergoing the Cadaver Liver Transplant.

The family stays Vangaon Dist. Thane. His family consists of self, his wife and his two children. The patient does agriculture work in Vangaon. And earns around Rs.10000/- approximately per month. His wife is a housewife. His children are studying in college.

The Approximate cost of liver Transplantation in an economy class at Jaslok Hospital and Research Centre is approximately Rs.16 lakhs to Rs.18 Lakhs approximately. This cost includes all charges from admission to discharge for the transplant. Rarely if there is an unforeseen complication, requiring more prolonged ICU or hospital stay the total charges may be higher.

The patient will need Immuno suppressive drugs post transplantation. The cost of which will be about Rs.20000/- to Rs.25000/- per month.

Requesting you to consider this case for financial help, which will help to reduce the burden on the family.

You can Kindly issue cheque in favour of **Jaslok Hospital And Research Centre** or **sanction the amount of donation and release the amount when the patient undergoes the transplant as it will be an unplanned transplant.**

Thanking you,

Yours faithfully,

  
Ruchita Taharabadkar.
