SURAT - 395003

Gen ID : 6212
BERA ID : 0752

DATE : 2.12.2009

MRS RODA PANTHAKI 6-B, 6TH FLOOR USHAKIRAN FLAT
OPP KAHNPUR GATE, KHANPUR, AHMEDABAD
(MS KAVINA - 9824262444)

REFD.BY : DR. ATUL H KANSARA ENT SURGEON

INSTRUMENT : RMS BERA RMS MARK II

Complaint & History:

- Referred for BERA test
- HO delayed speech and language development

TEST :

BERA (Brainstem Evoked Response Audiometry) carried out monaurally using chain CLICK stimuli of Alternate polarity at an overall rate of 27.7/second under sedation. Non penetrating electrodes employed in the VERTEX (Cz)- EAR (Ipsilateral) configuration, FOREHEAD (Fpz) serving as ground. Band pass filter set to **20 Hz - 3000 Hz**. Electrode Impedance measured less than 3 K ohms. Stimulus presented at 100 dB nHL.

RESULT :

ABR Tracings did not reveal any meaningful wave pattern.

IMPRESSION :

Test results are interpreted as PERIPHERAL DEAFNESS

ADVICE :

Appropriate hearing aid and training.

&

Advise COCHLAER IMPLANT if hearing aid is not of help.

EAR, NOSE, THROAT AND
COCHLEAR IMPLANT SURGEON

To.
Whomsoever it may concern

Respected Sir.

The bearer Mr Tata's son, Pakzad, aged 5 years, is deaf and can not hear any sound and hence is unable to speak clearly. In last 10 years there has been a phenomenal surgical technological advance where in we put a cochlear implant in such cases. The results are usually immediate and the person starts hearing like a normal person and with training starts speaking. This child is not benefiting from a hearing aid and will be able to hear normally once given a cochlear implant.

This operation has not yet been done for a lot of people in south Gujarat as we did not have resources to help such children.

But now the infrastructure has been developed and now available. We are the only centre in South Gujarat to do this kind of surgery and provide all services under one roof. We have already done 21 surgeries of this kind in the past 19 months. The implant which costs about 9.75 lakhs will be supplied by cochlear company of Australia.

The other expenses of the patient including pre-operative assessment, surgery and post-operative rehabilitation for 1 year are as follows :

Blood examination tests	Rs 500
C.T Scan Temporal bone	Rs 3000
MRI	Rs 5500
Hospital charges including Disposables, OT equipment, medicines, anesthesia, Hospital stay and post-operative mapping	Rs 75,000
Rehabilitation for 1 year	Rs 25,000

I request you to help this child by providing some donation.

We shall be obliged and appreciative if you can become a partner to help this child hear and lead a normal life.

Awaiting a favorable reply.

Yours sincerely,
